

# Important Information about your Electricity and Hot Water!

This building has been developed with a Local Energy Network for electricity supply, and a Circulated Hot Water system to provide all homes in this building with cost-effective and environmentally sustainable energy and hot water.

Energy On has been appointed to set up resident accounts, manage the invoicing, meter reading and payment collection of electricity and hot water.

To set up your new utility accounts, simply scan the QR code and complete the online form.
